4.8.6 Exchange (Trade-In)

This process allows the user to record for statistical (reporting) purposes the exchange of personal property to a vendor (supplier) in return for similar 'new' replacement property. There are no NPDMS Property Case Numbers assigned to these records.

NOTE: When navigating through NPDMS, the Fastpath name (limited to eight characters) is displayed on the fourth line starting at the center of the screen.

NOTE: The screen field data areas in the UOG are shown with either blanks, lines, or asterisks. Field data areas that are blank are not modifiable and display data if it is available. Field data areas with lines are modifiable and may be optional unless conditionally tied with other screen fields. If the field data area is tied to another field, NPDMS displays an appropriate warning or error message if an entry is required. Field data areas with asterisks require entry of data and may be modified if pre-filled by the system.

- From the NPDMS MAIN MENU (NDO000MB) type **5** at Enter Selection to access the TRANSACTION MENU (ND5000MA).

- Press **<Enter>**.

The TRANSACTION MENU (ND5000MA) screen is displayed.

```
                     NASA PROPERTY DISPOSAL MANAGEMENT SYSTEM      03/01/01

```

INPUT DATA

- Enter Selection   input value = **6**

- Prop Case No

- Item Id (optional)

- Press **<Enter>**.

Action is performed based on the input on the TRANSACTION MENU screen (ND5000MA).

4.8.6.1 Entry of Trade-In Data for Statistical Reporting

This process is used for statistical report purposes covering the Trade-in of NASA Property to a Vendor. The Case does not exist on the NPDMS Case File.

- From the TRANSACTION MENU (ND5000MA), type **6** at Enter Selection to access the EXCHANGE/SALE OF PROPERTY - TRADED TO VENDOR (T19) screen.

- Press **<Enter>**. NPDMS displays the EXCHANGE/SALE OF PROPERTY - TRADED TO VENDOR (T19) screen (ND5119MB) and places the cursor at the first input field.

```

INPUT DATA

- NSN

- Total Acq Cost

- Item Name

- Trade-In Amt Received

- Actual Prop Removal Date   input format = **MM/DD/YYYY**

- Vendor's Information

  — Disposition Qty

  — Requestor Name   input value = **blank** only if
    Company Name filled

  — Company Name   input value = **blank** only if
    Requestor Name filled

  — Address

  — City

  — State

  — Zip

  — New Prop Acceptance Date   input format = **MM/DD/YYYY**

  — Procurement Doc No

- Next Traded To Vendor Trans   input value = **Y** or **N**

- Retain   input value = **Y** or **N**

- Press **<Enter>**. NPDMS verifies entered data and displays appropriate
  error messages with the cursor placed at the first field in error. After the

corrected data has been entered, press **<Enter>**. The system continues to validate each data field until all data passes the edit checks.

- NPDMS re-displays the Exchange/Sale of Property - Traded to Vendor (T19) screen (ND5119MB), along with the message: *'Entry Reference Number Assigned Is = N10'.* If Next Traded To Vendor Trans equals N and the user presses **<Enter>**, NPDMS returns to the Transaction Menu (ND5000MA).

- NPDMS generates an Item Id, T19 Transaction and unique Property Transaction ERN to the Transaction History File.

4.8.7 Freezes

This process allows the user to "flag" available NASA Property for potential utilization or disposition by entering various freeze data. The freeze data includes the name of the person interested in the item, their agency or company, and the quantity requested. The freeze data also identifies whether or not the necessary paperwork to process the final transaction has been received. This process allows the user to add, change or delete a freeze record.

NOTE: When navigating through NPDMS, the Fastpath name (limited to eight characters) is displayed on the fourth line starting at the center of the screen.

NOTE: The screen field data areas in the UOG are shown with either blanks, lines, or asterisks. Field data areas that are blank are not modifiable and display data if it is available. Field data areas with lines are modifiable and may be optional unless conditionally tied with other screen fields. If the field data area is tied to another field, NPDMS displays an appropriate warning or error message if an entry is required. Field data areas with asterisks require entry of data and may be modified if pre-filled by the system.

- From the NPDMS MAIN MENU (NDO000MB) type **5** at Enter Selection to access the TRANSACTION MENU (ND5000MA).

- Press **<Enter>**.
